I can't wait to hear the outcome of KK's decision. I sort of want him to disapprove their program. It would set precedent and establish "teeth" for the 6217(g) program. We have certainly invested a lot in the CZARA program. Maybe this wish is a pipe dream. If you recall I worked on forestry issues for the 1st TMDL rule which resulted in the bullet hole in the bronze medal. Clinton went to town on the roadless issue in his lame duck term. Obama needs to follow suit.
